CNC Turret Punch Press Operator – 2nd Shift

Job Duties and Requirements:

ITAR governed position: Must be a US Citizen or Permanent Resident to qualify
Must be able to completely and independently setup, adjust, and regularly operate precision CNC Strippit Turret Punch Press. Including setting up of punch tooling, tool maintenance, monitor punch tooling use and sharpening of punches when required. Deburr punched parts as required. Willing to learn other areas of shop including but not limited to CNC Press Brakes, CNC Mills and assembly work. 2 plus years past sheet metal experience preferred.

Set-up jobs (e.g. production work orders) by reviewing work order, operator's or setup documents and drawings / models.

Ensure that the correct work order, drawings, operator documents, and part(s) are at the machine for the material to be worked.

Check work during each operation and/or after completed job to ensure parts are complete per drawing and that there are no defects.

Retrieve and download Numerical Control (NC) programs to machine controller using computing equipment.

Perform assembly work and surface finishing deburrs as required.

Applicant must possess a broad knowledge of sheet metal shop processes and methods.

Basic math skills. Skilled in using precision shop measuring devices. (Calipers, tape measure, etc)

Willing to learn shop-specific software (Catia V5 / Enovia).

Knowledge of Metasoft FabriWIN a big plus.

Coordinate daily tasks with others to align priorities for smooth operation of joint workloads. Strong communication skills.

Equal Opportunity Employer/Minorities/Female/Disability/Veterans
